Ken:

Christy is working on identifying status and contact information for the SBA shipyard entities on the spreadsheet. She is available to meet this afternoon and will provide a current update for you at that time.

Ken:

2:00 PM tomorrow will be fine. Kim is not here at the moment, but she left word that she was

9775084

available.
We will see you tomorrow

Ken, are you available to meet tomorrow, Tuesday, 4/14, after 1:30? We need to let you know what has been done with the project to determine if your needs have been met or whether additional research needs to take place, which we will prepare a cost estimate for.

Currently, Louise has been researching the files and documents we already have for Tar Creek to see if any of it was relevant or served your purpose. We did not prepare a cost estimate for this initial research.

Best regards,

Kim
